

Attachment J-3

Hanford Site Services and Interface Requirements Matrix

This page intentionally left blank.

Introduction

Attachment J-3 provides two *Hanford Site Services and Interface Requirements Matrices* (herein referred as the J-3.a *Matrix* and J-3.b *Matrix*) to identify the site services and interface requirements among DOE and its contractors. The matrices define the service provider and the associated, general interface obligations by those receiving the services, and are executed in a manner consistent with Section C, entitled *Hanford Site Interface Management*.

The J-3.a *Matrix* is applicable to the current Hanford Site Contracts: Hanford Mission Essential Services Contract (89303320DEM000031), Central Plateau Cleanup Contract (89303320DEM000030), Occupational Health Services Contract (89303919DEM000005), Tank Operations Contract (DE-AC27-08RV14800), 222-S Laboratory (DE-EM0003722), and Waste Treatment Plant Construction Contract (DE-AC27-01RV14136).

Due to the sequencing of the new Hanford Site Contracts, the applicability of both matrices will vary depending on when the new Hanford Site Contracts are awarded. Use the appropriate J-3 Matrix as directed by the CO.

Hanford Mission Integration Solutions, LLC shall utilize the J-3.a *Matrix* and transition to Attachment J-3.b *Matrix* at a future date (to be determined), dependent on timing for award of the Tank Waste Cleanup Contract. The J-3.b *Matrix* shall be applicable to the new Hanford Site Contracts including the Hanford Mission Essential Services Contract (HMESC), Tank Waste Cleanup Contract (TWCC), Hanford Occupational Medical Services (OccMed), Central Plateau Cleanup Contract (CPCC), and 222-S Laboratory Contract (222-S Lab).

To assist in the transition of services from J-3.a *Matrix* to the J-3.b *Matrix* a crosswalk is provided below.

J-3 Crosswalk

J-3.a Service Number	J-3.a Interface Title	J-3.b Service Number	J-3.b Interface Title

ATTACHMENT J-3.a Matrix

HANFORD SITE SERVICES AND INTERFACE REQUIREMENTS MATRIX

Services listed in the Hanford Site Services and Interface Requirements Matrix (Matrix) shall be performed in accordance with the Section H Clause entitled, Hanford Site Services and Interface Requirements Matrix.

All services are provided during the Hanford alternate work schedule (AWS) defined as 7:00 a.m. to 4:30 p.m. Monday through Thursday and 7:00 a.m. to 3:30 p.m. on standard Site Fridays unless otherwise noted. An additional AWS is defined as 6:00 a.m. to 4:30 p.m. Monday through Thursday (4x10 schedule) to align with the other Hanford Site contractors work schedule. Hanford Site contractors can request work outside of this schedule by providing a statement of work and requesting that scope as a usage-based service.

Legend for Matrix – The legend for the primary matrix users/providers is as follows:

HMESC	Hanford Mission Essential Services Contract
CPCC	Central Plateau Cleanup Contract
TOC	Tank Operations Contract
WTP	Waste Treatment and Immobilization Plant Contract

Other Site Users Examples include: Occupational Health Services Contractor (OHSC), Laboratory Analysis and Testing Services Contractor (LA&TS), Energy Savings Performance Contractor (ESPC), Pacific Northwest National Laboratory (PNNL) [activities located on the Hanford Site], Laundry Services Contractor, DOE, etc.
--

Hanford Site Contractors General term used to collectively refer to all the above users/providers.

Types of Interfaces –

1. Information: knowledge (data, facts, etc.) gathered or supplied
2. Physical: systems in tangible contact (i.e., ‘pipe-to-pipe’), or a physical exchange of product or materials
3. Service: provision of work for another contractor

HMESC SERVICES AND INTERFACE ACTIVITIES

Scope/Cost Allocation

Service Description

ISAP is the strategic plan for right-sizing the infrastructure to support the future Hanford Site mission and the Annual Forecast of Services and Infrastructure is a projection of needed utilities, services, and infrastructure from other Hanford Site contractors.

- HMESC shall develop, maintain and update an ISAP and the Annual Forecast of Services and Infrastructure, which includes the costs for services. Proposed changes in service providers shall include a justification, and a plan forward.
- HMESC shall solicit input from Hanford Site contractors/users for the ISAP and the Annual Forecast of Services and Infrastructure, including projection of need for services and proposed performance metrics/controlling agreements for the service provider.
- DOE will evaluate contractor/user input prior to approval. The plan will be approved by DOE.

Usage-Based Services

N/A

Direct-Funded Services

HMESC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.

Scope/Cost Allocation

Service Description

Physical Security under this activity is for accountable quantities of nuclear and classified materials, including performance testing, intrusion detection, entry/access control, explosive detection, locksmith services, and engineering and maintenance of the physical security and access control systems.

- HMESC shall provide Security Representatives for facilities or groups of facilities where there are important safeguards and security (SAS) assets.
- HMESC shall develop, or assist in the development of facility asset protection requirements and conduct annual reviews of Asset Protection Agreements.
- HMESC shall design security system upgrades for existing facilities with changing requirements and design security systems for new facilities.
- HMESC shall provide locksmith support for installation, replacement, and maintenance of locks, keys, and access control systems for the protections of Government property and nuclear materials, including special nuclear materials, classified matter, new facilities and WTP turnover facilities to TOC, etc.
- Hanford Site contractors shall provide the HMESC information about SAS arrangements and/or changes prior to new operations commencing, or changing operations or configurations that might alter the performance of existing SAS systems; support the HMESC in the development of or update of facility Asset Protection Agreements, and requesting locksmith services.

Usage-Based Services

N/A

Direct-Funded Services

Funded through the HMESC; provided at no cost to Hanford Site contractors with the exception of physical security upgrades within the facility - these may be shared costs between the HMESC and the Hanford Site contractor that has responsibility for the facility.

Scope/Cost Allocation

Service Description

Physical security under this activity is for Government property other than nuclear material, special nuclear material, and classified. Physical Security such as fences, locks, etc. through Asset Protection Agreements.

- HMESC shall develop, or assist in the development of facility asset protection requirements and conduct annual reviews of Asset Protection Agreements.
- Hanford Site contractors shall support the HMESC in the development of or update of facility Asset Protection Agreements and implement those agreements.
- HMESC shall provide Technical and Engineering Security services as required for the design and/or turnover of new facilities.
- Consistent with Interface Number 88, TOC shall be responsible for coordinating, planning, and paying for the WTP contractor's requirements for infrastructure, utility, and service support from the HMESC and CPCC as identified in the J-3 Hanford Site Services and Interface Requirements Matrix except for Interface Numbers 5, "Physical Security Systems (Government Property)," and 64, "Radio Services for Emergency Services." WTP shall be responsible for coordinating, planning, and paying for usage-based services requested from Interface Numbers 5 and 64.

Usage-Based Services

WTP may request service as a usage-based service.

Direct-Funded Services

HMESC bears the cost burden of program administration; Hanford Site contractors bear costs of physical security upgrades. If used by PNNL off Hanford Site, they pay full-cost.

6	Information Security - (Operations Security (OPSEC))	Information / Service	Direct-Funded	Mandatory	Provide service to site contractors	Receive service from and provide input to HMESC	Receive service from and provide input to HMESC	N/A	Receive service from and provide input to HMESC (only DOE)

Scope/Cost Allocation

Service Description

The OPSEC Program helps ensure that sensitive information is protected from compromise and secured from unauthorized disclosure, and provides management with necessary information required for sound risk management decisions concerning the protection of sensitive information.

- HMESC shall implement a Hanford Site-wide program; assure conformity of implementation with OPSEC standards and requirements; conduct assessment(s) of all Hanford Site facilities having Category I special nuclear material (SNM) (or credible roll-up to Category I SNM); conduct reviews of all Hanford Site facilities that have the potential to process or store classified or sensitive information; and annually review and update the Critical Information List.
- Hanford Site contractors shall implement their internal OPSEC responsibilities, participate and support Hanford Site-wide OPSEC Working and Awareness groups; provide support to the HMESC OPSEC assessments; and support the annual review and update of the Critical Information List.

Usage-Based Services

N/A

Direct-Funded Services

HMESC bears the cost of Program administration. Hanford Site contractors/users bear internal implementation costs.

Scope/Cost Allocation

Service Description

A DOE security badge is utilized for all DOE and contractor personnel to gain access to DOE-owned or -leased facilities or areas where DOE-sponsored work is ongoing.

- HMESC shall provide badging service for the Hanford Site, which includes manufacture, issuance, destruction, control, and accountability for DOE Standard, Hanford Specific, Temporary, and Personal Identify Verification badges.
- HMESC shall coordinate and initiate “STOP ACCESS” procedures, and control and issue private vehicle passes for Property Protection Areas.
- Hanford Site contractors shall obtain badging service from HMESC; participate in “STOP ACCESS” program; and obtain vehicle passes from HMESC.

Usage-Based Services

Service Description

The Cultural and Historic Resource Program administers the program for protecting Hanford Site cultural and historic resources, and documents and addresses any real or potential Site-wide issues and their impacts; and assures compliance with associated laws, DOE directives, and legally-binding agreements.

- HMESC shall monitor and support the resource protection activities of Hanford Site contractors; coordinate surveys performed to document the occurrence of protected resources; evaluate and document impacts to protected resources; perform NHPA Section 106 Reviews for Hanford Site contractors; maintain, establish procedures for and manage Hanford Site cultural and historic resource site files (hard copy and electronic) and associated compliance project files for all such work that occurs at the Hanford Site; and curate files and artifacts in accordance with 36 CFR 79.
- Hanford Site contractors shall provide information to the HMESC necessary to perform NHPA Section 106 Reviews for their scope of work, and provide to HMESC information and materials to support HMESC execution of the Comprehensive Land Use Plan's (CLUP) Cultural & Historic Resource Program Plan. In particular, mission contractors (who meet 36 CFR 61 standards and guidelines) shall utilize the HMESC project records and files for background research.

Usage-Based Services

Cultural reviews are a usage-based service. Hanford Site contractors bear request for services costs.

Direct-Funded Services

HMESC bears the cost burden of program administration. Hanford Site contractors/users bear internal implementation costs.

Scope/Cost Allocation

Service Description

Motor Carrier Services provides a centralized pool of vehicles and drivers for the on-site or local transportation of freight including hazardous material at the Hanford Site, including radioactive materials and radioactive/mixed waste.

- HMESC shall:
- Manage, schedule, and conduct motor carrier services.
- Maintain and operate a centralized pool of vehicles and drivers for the on-site and limited local transportation of freight including hazardous and radioactive materials at the Hanford Site.
- Act as the Hanford Site motor carrier similar to a commercial motor carrier.
- Provide compressed gas shipments.
- Pick up at local vendors as directed by their customers.
- The Hanford Site contractor will prepare freight for shipment (packaging the freight) and provided associated documentation or direct a pick up of freight from a particular Site contractor or vendor.
- The preferred method for shipment of freight to other DOE site or to commercial vendor(s) is using a commercial motor carrier.
- Upon mutual agreement, the Contractor may provide a limited number of specialized vehicles to Other Hanford Site Contractors to support the efficient management of resources. Any vehicles provided by the HMESC will remain in the HMESC Fleet Maintenance Programs.
- Hanford Site contractors who are customers of this service prepare the waste for transport including shipper/receiver agreement documents, transportation documents for packaging, transportation and receipt by the receiving facility.

- Services are excluded for ERDF operations and 618-10 site remediation activities.

Scope/Cost Allocation

Service Description

Roads and Grounds consist of road maintenance, 24/7 snow removal, traffic management, and common grounds maintenance service for the Hanford Site.

Usage-Based Services

Hanford Site contractors may request additional services for facility specific services, such as, snow removal on sidewalks.

Direct-Funded Services

- HMESC shall maintain primary and secondary Hanford Site roadways, to include patching/paving, striping, and other services; perform maintenance of common grounds; and make recommendations to restrict access and make the appropriate notifications of restricted access or closure to DOE and other Hanford Site contractors in the event that roads are unsafe for travel. HMESC shall remove snow at primary and secondary roads and at designated facilities, parking lots, and walkways (per the Hanford Snow Removal Plan).
- Maintain the common grounds to ensure public/worker safety and environmental integrity within the 200, 300, and 600 Areas. Activities in this area include perimeter fence/sign maintenance at the Site boundaries; lawn and landscape care; annual inspection and maintenance of gravel pits; general area cleanup; sweeping sidewalks; washing buildings; sweeping general purpose facility parking lots and repairing bumper blocks.

Scope/Cost Allocation

Service Description

Electrical Transmission, Distribution, & Energy Management is the management function of the high voltage electrical utility consisting of a system for providing power to the facilities at the Hanford Site.

- HMESC externally supplies electrical power to Hanford Site contractors.
- HMESC shall coordinate with other Hanford Site contractors to obtain the following:
 - Energy cost and consumption data for the Annual Energy Conservation Performance Report.
 - Energy cost and consumption data for the quarterly Hanford Site energy cost and consumption date entry to EMS4 database.
 - Facility shut down constraints and impacts due to fuel reductions for the Emergency Conservation Plan.
 - Facility electrical load information for the annual electrical load forecast.
 - Other facility electrical or energy information, as needed.
- Hanford Site contractors shall provide input for EMS4 database, annual Energy Conservation Performance Report, Emergency Conservation Plan, and annual electrical load forecast.
- Hanford Site contractors may enter into a service-provider relationship with the HMESC and/or other utility providers for the operation, maintenance, and/or closure of all or part of their internal utility systems.
- Hanford Site contractors shall protect Hanford Site systems against disruption and damage during performance of work and support Hanford Site utility operations, maintenance, and closure of a service where appropriate.

Notes:

- The interface point between the HMESC electrical distribution system and the Hanford Site contractors' facilities electrical system is routinely the connection at the secondary side of the building service transformer (HMESC also owns the electrical meters) However, there may be some facilities where the systems interface is located at a different connection point. The interface points are identified on the electrical utility switching system diagram drawings.

Usage-Based Services

Direct, mission-related upgrade projects are sub-contracted by HMESC and paid by the requesting Hanford Site contractor.

Direct-Funded Services

Basic service funded through HMESC; provided at no cost to Hanford Site contractors

42	Water System	Physical / Service	Combination of Usage-Based and Direct-Funded	Mandatory	Provide service to site contractors	Receive service from and provide input to HMESC	Receive service from and provide input to HMESC	Receive service from and provide input to HMESC per ICD 01 –Raw Water and ICD 02 – Potable Water	Receive service from and provide input to HMESC
Scope/Cost Allocation									
<p><u>Service Description</u></p> <p>The Water System function is a water utility service (the geographic areas to be served are the 100B/C, 200, and 600 Areas).</p> <ul style="list-style-type: none"> HMESC shall manage the water system in accordance with agreements negotiated with the Hanford Site contractor being served and in accordance with guidance documents cited in state regulations for water systems; and maintain the existing Water System Master Plan. The Plan shall document a strategy for managing repairs, life extensions, replacements, and deactivations for facilities and equipment for the water systems within the scope of this contract over a ten year planning horizon. HMESC shall provide a “purveyor” (per the Washington Administrative Code and other state regulations) for HMESC-managed water systems. HMESC shall be responsible for all aspects of the water distribution system only up to and including the first off-valve or demarcation point outside the customer’s facility or complex of facilities. The customer or facility maintains all responsibility for lines downstream of this agreed-upon point. On side-by-side multiple valve isolations and backflow assemblies, the facility assumes responsibility from the discharge side of the downstream isolation valve. For WTP, the demarcation point is the premise isolation backflow prevention at the fence line. For PFP, the demarcation point is the premise isolation backflow assemblies. HMESC shall perform, as requested, backflow preventer testing, water system contaminant monitoring management, and pipeline sanitization for other Hanford Site contractors (e.g., water systems outside of HMESC): Hanford Site contractors shall input to the Water System Master Plan and negotiate agreements for water utility service. CPCC shall identify priority water line upgrades which would prevent further ground water degradation; HMESC shall perform priority water line upgrades to prevent further ground water degradation. <p>Notes:</p>									

- The 100K Area and 400 Area Water Systems will be operated and maintained by the CPCC.
- The 300 Area Water System will be operated and maintained by PNNL, by agreement between DOE-RL and Pacific Northwest Site Office (PNSO).

Usage-Based Services

Direct, mission-related upgrade projects are paid for by the Site contractor requiring the upgrade. For water systems outside of the HMESC, water system contaminant monitoring management is a usage-based service reimbursed by the user. Water permits for Hanford Site contractors' new facilities is a usage-based service.

Direct-Funded Services

Hanford Site-wide water upgrades and Basic Service are funded through HMESC; provided at no cost to site contractors.

43	Sewer Systems	Physical Service	Combination of Usage-Based and Direct-Funded	Mandatory	Provide service to site contractors	Receive service from and provide input to HMESC	Receive service from and provide input to HMESC	Optional	Receive service from and provide input to HMESC

Scope/Cost Allocation

Service Description

- Sewer system operations provide sewer pumper truck services and collection of sewage through piping for treatment and disposal in subsurface soil absorption systems, as well as the 200W Lagoon. The geographic areas to be served are the 100B/C, 200, and 600 Areas. HMESC shall operate the Hanford Site sanitary sewer systems, including compliance sampling; maintenance of support structures, systems, and components; and performance of sewer administration duties in accordance with the State of Washington sanitary sewer regulations.
- HMESC shall update the existing Sewer System Master Plan. The Plan shall document a strategy for managing repairs, life extensions, replacements, and deactivations for facilities and equipment for the sewer systems within the scope of this contract over a ten year planning horizon and shall be updated every two (2) years.
- Hanford Site contractors shall provide input to the Sewer System Master Plan.
- Legacy facilities that are returned to service will be treated as a base, unless special circumstances require facility upgrades.

Notes:

- The 100K Area, 200 Area ERDF, and 400 Area sanitary sewer systems will be operated and maintained by the CPCC.
- The 300 Area sanitary sewer system will be operated and maintained by PNNL, by agreement between DOE-RL and PNSO.

Usage-Based Services

Direct, mission-related upgrade projects are paid for by the Hanford Site contractor requiring the upgrade. Hanford Site contractors are responsible for facility-specific upgrades or new facilities sewer tie-ins under their control. Sewer permits for Hanford Site contractor new construction or project upgrades are a usage-based service.

Direct-Funded Services

Hanford Site-wide sewer upgrades and basic service are funded through HMESC; provided at no cost to Hanford Site contractors.

Scope/Cost Allocation

Service Description

The Hanford Site Structures List (List) and Hanford Site Assignment List Is the integrated, central inventory of Hanford facilities, structures, and waste sites. DOE Hanford uses these lists for integrated planning of baselines, cost-estimating, reporting DOE Gold Chart metrics, establishing assignment of responsibility for each facility and waste site to site contractors, support to FIMS, HSTD (Hanford Site Technical Data Base), Caretaker, and WIDS. This activity provides for maintenance, configuration control, and upgrading of the Lists.

- HMESC shall maintain the Hanford Site Structures List and Hanford Waste Site Assignment List serving as Administrator of the data, and is responsible for the platform for the data and Site-wide reporting.
- HMESC shall be responsible for the Site-wide configuration control process, and shall be responsible for collecting data from Hanford Site contractors in order to meet all mandatory reporting requirements.
- Proposed changes in assignment of facilities must be ratified by DOE.

Hanford Site contractors deliver facilities, structures, and wastes site data and input to the Hanford Site Structures List and Hanford Waste Site Assignment List.

The Hanford Site contractors shall provide data and support to the HMESC, for the Hanford Sites contractor's facilities, waste sites and activities, to support maintenance of the Hanford Site Structures List and Hanford Waste Site Assignment List, Hanford Site contractors supplying information/ data are responsible for data quality.

Service Description

External Affairs includes assistance to DOE in its programs to communicate with outside entities for Hanford Site tours.

- HMESC shall work with DOE to strategize, plan, arrange logistics for and conduct or support Hanford Site tours and visits to projects/facilities by external parties as requested.
- HMESC shall provide transportation, badging coordination, working with other Site contractors, as needed, and providing guides/speakers, handouts, and refreshments, as appropriate or as requested.
- Hanford Site contractors shall provide technical staff support to HMESC when their facilities or waste sites are visited, to include guides/speakers, and handouts, when the tour involves respective Hanford Site contractor workscope.
- HMESC shall support DOE's management of the Hanford web site.

WIPP CORE CHARACTERIZATION PROJECT SERVICES AND INTERFACE ACTIVITIES

Transuranic Waste Characterization and Certification

Interface Number	Interface Title	Interface Type	Cost Type	Service Type	WIPP Core Characterization Project (CCP)	HMESC	CPCC	TOC	WTP	Other Contracts
75	Transuranic (TRU) and Transuranic Mixed Waste (TRUM) Packaging, Characterization, Certification, and Transportation	Information / Physical / Service	Combination of Usage-Based and Direct-Funded	Mandatory	Performs all Hanford TRU Waste Characterization and Certification activities.	N/A	Provides support to CCP characterization and certification activities. Receives waste from site users.	Package and deliver TRU to CPCC	N/A	Except DOE, package and deliver TRU to CPCC.

Scope/Cost Allocation

Service Description

This activity provides for TRU and TRUM certification and loading waste for shipment to the Waste isolation Pilot Plant (WIPP).

- CPCC shall receive waste from contractors, provides interim storage if required, certifies waste for shipment, prepares payloads, and loads waste for shipment to WIPP or other DOE Sites.
- Hanford Site contractors shall conduct and budget for packaging (if required by WAC) and transporting waste to CPCC, and certify for WIPP and load waste for shipment to WIPP or other DOE Sites.
- CCP will provide, operate, and maintain RTR equipment, drum assay equipment, large box NDE/NDA equipment (if needed), and mobile loading equipment.
- CCP will operate and maintain the Hanford Super-HENC equipment for Standard Waste Box (SWB) assay.
- CCP will operate the Shipping and Receiving Bay within WRAP for TRUPACT loading. CPCC will operate and maintain the balance of the WRAP facility.
- CCP will provide the equipment for and perform head space gas sampling (HSGS) and analysis.
- CCP will establish and implement appropriate ESH&Q programs to support CCP activities.

- CPCC will perform initial (in-field) assay of retrieved waste, as necessary, to segregate TRU from non-TRU waste.
- CPCC will perform all waste repackaging activities.
- CPCC will provide facility records, packaging records, and other documents necessary for CCP to prepare waste certification packages.
- CPCC will provide the necessary public release clearances for CCP generated documents.
- CPCC will provide the infrastructure to support installation and operation of the CCP-provided RTR equipment, drum assay equipment, and mobile loading equipment.
- CPCC will provide the facility and infrastructure to support the installation and operation of the large box NDE/NDA equipment, if needed.
- CPCC will provide mobile crane and crane operator support for CCP mobile loading equipment.
- CPCC shall receive TRU waste from other site users and provide interim storage if required.
- CPCC will identify ESH&Q interfaces with CCP.
- Other Hanford Generators of TRU waste will provide TRU waste to CPCC that complies with WIPP waste acceptance criteria.

Usage-Based Services

- Waste generators provide funding to CPCC for the increment of work resulting from their waste.

Direct-Funded Services

CPCC provides ready-to-serve capability for TRU waste receipt, storage, and repackaging.

Scope/Cost Allocation

Service Description

This activity provides for maintenance, configuration control, and upgrading of key Hanford Site environmental assessment databases.

The CPCC shall serve as Data Manager for the following information systems:

- Hanford Environmental Information System (HEIS);
- Sample Data Tracking (SDT) System;
- Hanford Well Information System (HWIS);
- Waste Information Data System (WIDS).

The Hanford Site contractors shall provide data and support to the CPCC, for the Hanford Sites contractor's facilities and activities, to support maintenance of the above listed Hanford-wide environmental databases. Hanford Site contractors supplying information/ data are responsible for data quality.

Usage-Based Services

N/A

Direct-Funded Services

CPCC bears the cost burden of program administration. Hanford Site contractors bear internal implementation costs.

**HANFORD SITE SERVICES AND INTERFACE
REQUIREMENTS MATRIX**

This page intentionally left blank.

ATTACHMENT J-3.b Matrix

HANFORD SITE SERVICES AND INTERFACE REQUIREMENTS MATRIX

The services listed in the J-3.b, *Hanford Site Services and Interface Requirements Matrix* (hereinafter the J-3.b *Matrix*) shall be performed in accordance with the Section H Clause entitled, *Hanford Site Services and Interface Requirements Matrix*, and Section C entitled, *Hanford Site Interface Management*.

The service provider shall provide services to OHCs and/or other site users as identified in the J-3.b *Matrix* as either a Direct Funded or a Usage-Based Service (UBS). The purpose of the J-3.b *Matrix* is to identify the site services and interface requirements. The J-3.b *Matrix* identifies the service provider and the associated, general interface obligations by those receiving the service. The J-3.b *Matrix* is not an all-inclusive listing of services that may be required or provided; however, services provided to another OHC and/or other site users shall fall within the scope of the provider's contract.

The following Matrix Cross Reference for Service Details provides a reference to the HMESC Section C PWS, for OHCs to obtain service details.

Also, provided below is the definition of Direct-Funded Service and UBS, and a primary list of users/providers used in the Matrix.

Direct Funded Service and UBS

J-3.b Matrix Services	Definition of Services
Direct Funded Services	Mandatory services that may only be performed by the identified provider. These services include staff, equipment and facilities necessary to provide the service and are directly funded by DOE within the annual budget constraints for those services. Services are provided at no cost to eligible OHC (users).
Usage-Based Services (UBS)	<p>Services that are self-consumed by the service provider themselves or charged to the Contractor requesting the service. This includes service requests that are above and beyond Direct Funded Services. Usage-Based Services are provided to Other Hanford Contractors (OHC) on a cost recovery basis exclusive of fee. The elements of cost may include the following:</p> <ul style="list-style-type: none">• Labor• Equipment• Material• Overtime• Program Allocation, including Government & Administrative Expenses

Direct Funded Services are provided based on the standard work hours of the receiving contractor as documented in the Governance Policy as discussed in Section C entitled, *Hanford Site Interface Management*.

Legend for Matrix – The legend for the primary matrix users/providers is as follows:

Legend For Matrix	
HMESC:	Hanford Mission Essential Services Contract – Provide essential services and infrastructure to the Hanford Site
CPCC:	Central Plateau Cleanup Contract – Safely operate nuclear facilities and conduct environmental remediation and waste management activities on the Hanford Site
TWCC:	Tank Waste Cleanup Contract – Safely store high-level waste and provide tank waste feed and operate the Waste Treatment and Immobilization Plant (WTP) in the Direct Feed Low-Activity Waste configuration
WTP Construction:	Waste Treatment and Immobilization Plant Construction Contract – Design, construction and commissioning the WTP High-Level Waste and Pretreatment Facilities
OccMed:	Hanford Occupational Medical Services Contract – Provide comprehensive occupational medical services to workers on the Hanford Site
222-S Lab:	222-S Laboratory Contract – Management and operation of the 222-S Laboratory which performs analysis of highly radioactive samples, vadose media, soils, water, industrial hygiene monitoring etc.
Other Site Users:	Examples include Energy Savings Performance Contractor (ESPC), Pacific Northwest National Laboratory (PNNL) [activities located on the Hanford Site], Laundry Services Contractor (LSC), Janitorial Services Contractor (JSC), Personnel Security Services Contractor (PSSC), and the U.S. Department of Energy (DOE), etc.
OHC:	Other Hanford Contractor – General term used to collectively refer to the above users/providers
MAPR	Manhattan Project National Historical Park (MAPR) – Includes B Reactor National Historical Landmark and other landmarks as described in Section J, Attachment J-14 entitled, <i>Manhattan Project National Historical Park</i> . MAPR is not included as a site user unless specifically noted, While the MAPR (and the MAPR Contractor) may receive some services, at DOE discretion, MAPR is separate from the cleanup mission and is not subject to Hanford Site requirements. For the purpose of this J-3.b Matrix, MAPR is not considered an OHC.

Interface Types:

1. Information: Planning, knowledge (data, facts, etc.) gathered or supplied.
2. Physical: Systems in tangible contact (i.e., ‘pipe-to-pipe’), or a physical exchange of product or materials.
3. Service: Provision of work for another contractor.

Service Types:

1. Mandatory – services may only be performed by the identified provider.
2. Optional – services may optionally be performed by another provider with adherence to Labor Law requirements related to Collective Bargaining Agreements.

Site Integration and Interface Management

1	Hanford Site Integration	Information	Provide service and receive input	Provide input	Provide input	N/A	Provide input	Provide input	Provide input
Service Description									
The Hanford Mission Essential Services Contract (HMESC) provides the U.S. Department of Energy (DOE) with an unfiltered forward-looking forecast of emerging cross-cut issues that could affect Hanford Site Contractors, and shall identify longstanding or emerging cross-cut issues that affect efficient Hanford Site operations and provide recommendations for improvement. Additionally, HMESC shall facilitate a contractor leadership council, facilitate crosscutting inter-contract Site integration opportunities and lead/facilitate DOE directed integration initiatives. Examples of integration activities include opportunities for more efficient utilization of site resources such as business systems, training, etc., and cross cutting issues such as traffic safety.									
Direct Funded Services

Utilities and Infrastructure

Table J-3.b-7. Service Number 7, Electrical Transmission, Distribution, & Energy Management

Service Number	Service Title	Interface Type	HMESC	CPCC	TWCC	WTP Construction	222-S Lab	OccMed	Other Site Users
7	Electrical Transmission, Distribution, & Energy Management	Physical/Service	Provide service and receive input	Receive service and provide input	Receive service and provide input	Receive service and provide input per ICD 11 -Electricity	Receive service and provide input	Receive service and provide input	Receive service and provide input (Includes MAPR)
Service Description									
<p>Electrical Transmission, Distribution, & Energy Management is the management function of the high voltage electrical utility (100, 200, 400, and 600 Areas) consisting of a system for providing power to the facilities at the Hanford Site.</p> <ul style="list-style-type: none"> OHCs shall provide annual electrical load forecast. OHCs shall provide input to the Hanford Site Electrical Utilities Master Plan. OHCs shall protect Hanford Site Systems against disruption and damage during performance of work and support Hanford Site Utility operations, maintenance, and closure of a service where appropriate. Electrical consumption costs to be paid directly by DOE. 									
Direct Funded Services									
<p>HMESC Shall:</p> <ul style="list-style-type: none"> Supply electrical power to OHCs. Coordinate with OHCs to obtain the following: <ul style="list-style-type: none"> Energy cost and consumption data for the Annual Energy Conservation Performance Report; Facility shut down constraints and impacts due to fuel reductions for the Emergency Conservation Plan; Facility electrical load information for the annual electrical load forecast; and Other facility electrical or energy information, as needed. Maintain the Electrical Distribution System. The interface (demarcation) point between the HMESC's Electrical Distribution System and OHCs facilities electrical system is routinely the connection at the secondary side of the building service transformer (the HMESC also owns the electrical 									

meters). However, there may be some facilities where the systems interface is located at a different connection point. The interface points are identified on the Electrical Utility Switching System Diagram Drawings and shall also be documented in interface agreements.		
Usage Based Services		
Service	Service Type	Clarifications
Support for direct mission related projects and outage requests	Mandatory	Activities affecting transmission and distribution systems based on mission requirements; this includes, but is not limited to, engineering, reviews, permits, upgrade costs, and supervision. OHCs may enter into a service-provider relationship with the HMESC and/or other utility providers for the operation, maintenance, and/or closure of all or part of their internal utility systems.
Excavation support	Mandatory	Standby for excavation activities related to Transmission and Distribution System.
Permits and reviews	Mandatory	
Electrical utilities support past demarcation point that separates the Site transmission and distribution system from building/landlord electrical systems	Optional	Support required to meet project/buildings needs past the demarcation point owned by electrical utilities.
Temporary electrical setup	Optional	Applies to secondary side of the transformer.

Table J-3.b-8. Service Number 8, Water Systems

Service Number	Service Title	Interface Type	HMESC	CPCC	TWCC	WTP Construction	222-S Lab	OccMed	Other Site Users
8	Water Systems	Physical/Service	Provide service and receive input	Receive service and provide input	Receive service and provide input	Receive service and provide input per ICD 01 –Raw Water and ICD 02 – Potable Water	Receive service and provide input	Receive service and provide input	Receive service and provide input
Service Description									
<p>The Water System function is a water utility service (the geographic areas to be served are the 100 [B and C], 200, and 600 Areas).</p> <ul style="list-style-type: none"> OHCs shall input to the Water System Master Plan and collaborate on development of interface. There is no charge for raw/potable water consumption. 									
Direct Funded Services									
<ul style="list-style-type: none"> Manage the Water System in accordance with interface agreements established with the OHCs being served and in accordance with guidance documents cited in state regulations for water systems, and maintain the existing Water System Master Plan. The plan shall document a strategy for managing repairs, life extensions, replacements, cross-connection control, and deactivations for facilities and equipment for the water systems within the scope of this contract over a 10-year planning horizon. Perform operation and Site-wide upgrades of Water Systems, compliance, monitoring, and sampling, maintenance of support structures, systems, and components, operation and maintenance of the Water Treatment Plant, and perform water administration duties. Provide a “purveyor” (in accordance with the Washington Administrative Code and other state regulations). Maintain responsibility for the Water Distribution System up to and including the first off-valve or demarcation point outside the customer’s facility or complex of facilities. The customer or facility maintains responsibility for lines downstream of this agreed-upon point. On side-by-side multiple valve isolations and backflow assemblies, the facility assumes responsibility from the discharge side of the downstream isolation valve. For WTP Facility, the demarcation point is the premise isolation backflow prevention at the fence line. Eliminate and remove services and equipment that are no longer required, and align the remaining systems and equipment with Hanford Site and project missions. Replace fixed and system-related utilities with temporary services or permanent independent packaged systems as appropriate. Develop a map and/or further interface agreements/plans specifying details of exactly where the demarcation points occur near each facility or complex of facilities. 									

Usage Based Services		
Service	Service Type	Clarifications
Direct, mission-related upgrade projects	Mandatory	Paid for by the Hanford Site Contractor requiring the upgrade to Water System.
Water permits for OHCs new facilities	Mandatory	
Water System Contaminant Monitoring Management	Optional	Water systems outside of service provider's contract.
Potable water backflow preventer testing	Mandatory	
Pipeline sanitization and sampling for OHCs	Mandatory	Service past the demarcation point only.
Project support from Water System Organization	Mandatory	This includes, but is not limited to, the following types of work: water tie-ins, hydrant tie-ins, water disconnects/isolation, lock and tag, standby attendants, engineering, reviews and temporary water connections.
Potable water filling services	Optional	

Table J-3.b-9, Service Number 9, Sewer Systems

Service Number	Service Title	Interface Type	HMESC	CPCC	TWCC	WTP Construction	222-S Lab	OccMed	Other Site Users
9	Sewer Systems	Physical/Service	Provide service and receive input*	Receive service and provide input	Receive service and provide input	Optional	Receive service and provide input	Receive service and provide input	Receive service and provide input (PNNL provides service in the 300 Area)*
Service Description									
<p>Sewer System operations provide sewer pumper truck services and collection of sewage through piping for treatment and disposal in subsurface soil absorption systems. The geographic areas to be served are the 100, 200, and 600 Areas.</p> <ul style="list-style-type: none"> OHCs shall provide input to the Sewer System Master Plan. The WTP Construction Site Sewer System is excluded from the scope of this contract. There are approximately 50 septic tank/subsurface soil absorption systems of which approximately 44 percent of the systems are permitted with the State of Washington Department of Health (DOH) and the remaining are not permitted. DOH will not allow new connections to or modifications to these non-permitted systems without updating to permit standards. There are approximately 15 holding tanks that are permitted with DOH. 									
Direct Funded Services									
<ul style="list-style-type: none"> Operate, maintain, and manage the Hanford Site Sanitary Sewer Systems and 200 West Evaporative Lagoon, including compliance sampling; maintenance of support structures, systems, and components; and performance of sewer administration duties in accordance with the State of Washington Sanitary Sewer Regulations. Manage, operate, and maintain the sewer systems in accordance with the state laws, regulations and guidance documents cited in state regulations for sewer systems. Monitor components for signs of impending failure, with selective maintenance performed when appropriate, to extend the operating life when necessary. Perform necessary activities to ensure safe operations and compliance to applicable laws and regulations such as: flow data tracking; drain field rotations; filter inspection/cleaning; drain field monitor port inspections; tank pumping, electrical component inspection; and alarm response. Conduct flow data calculations and assessments; submit annual reports to DOH. 									

- Sign and submit monitoring, inspection, and maintenance reports for the sewer systems to DOH.
- Update the existing Sewer System Master Plan.
- OHCs shall provide input to the Hanford Site Sewer System Master Plan.

Usage Based Services		
Service	Service Type	Clarifications
Direct, mission-related upgrade projects	Mandatory	Paid for by the Hanford Site Contractor requiring the upgrade to Water System.
Sewer permits for OHCs new facilities	Mandatory	
Sampling for OHCs	Mandatory	Service past the demarcation point only.
Project support from Sewer System Organization	Mandatory	This includes, but is not limited to, the following types of work: sewer tie-ins, drain field testing, sewer disconnects/isolation, lock and tag, standby attendants, engineering, reviews and temporary sewer connections.
Sewer pumping services	Optional	
300 Area Sewer Service*	Mandatory	PNNL will provide 300 Area Sewer Service. OHCs will receive the service.

Table J-3.b-10. Service Number 10, Sanitary Waste Management & Disposal

10	Sanitary Waste Management & Disposal	Service	Provide service and receive input	Receive service and provide input	Receive service and provide input	Optional	Receive service and provide input	Receive service and provide input	Receive service and provide input
Service Description									
Sanitary Waste Management and Disposal function consists of waste collected from onsite dumpsters and transported to offsite landfills for disposal. OHCs shall request and provide requirements for service.									
Direct Funded Services									
<p>Service scope funded through the HMESC and provided at no cost to OHCs includes:</p> <ul style="list-style-type: none"> • Delivery of sanitary waste dumpsters. • Pick up, inspect, and dispose of non-radioactive, non-hazardous dry waste. • Management and oversight of Hanford Site Sanitary, Inert, and Demolition Waste Landfills that are currently in operation or closed. Construction debris that meets the Washington Administrative Code is disposed onsite in former borrow pits. • Provide lysimeter maintenance and monitoring, leachate collection and disposal, and methane gas monitoring (eight-wells) for the Hanford Solid Waste Landfill; also includes fence repair, annual benchmark integrity, soil stabilization, weekly inert and demolition landfill inspection, and quarterly inspection. • Provide oversight of offsite contracts for solid municipal waste, non-regulated drummed waste, asbestos waste, and medical waste. • Collect waste from onsite dumpsters, and transport to offsite landfills for disposal. 									
Usage Based Services									
Service			Service Type		Clarifications				
Delivery and disposal of sanitary waste for roll off boxes			Optional		These are additional requests for waste disposal and transport of roll off boxes; usually for demolition/construction debris.				

Table J-3.b-11. Service Number 11, Roads and Ground

Service Number	Service Title	Interface Type	HMESC	CPCC	TWCC	WTP Construction	222-S Lab	OccMed	Other Site Users
11	Roads and Grounds	Service	Provide service and receive input	Receive service and provide input	Receive service and provide input	Receive service and provide input per ICD 12 -Roads	Receive service and provide input	Receive service and provide input	Receive service and provide input (except PNNL off Hanford Site)
Service Description									
<p>Roads consist of primary and secondary Hanford Site Roadways. This includes road maintenance, 24/7 snow removal, and traffic management. Maintain the common grounds to ensure public/worker safety and environmental integrity within the 200, 300, and 600 Areas.</p> <ul style="list-style-type: none"> OHCs to participate in annual Snow Removal Plan. Snow Removal includes designated facilities, parking lots and walkways per the Hanford Snow Removal Plan. OHCs to participate in annual development of Parking Lot Designation List, General use Facilities List, and Common Ground Maintenance Map. 									
Direct Funded Services									
<ul style="list-style-type: none"> Maintain primary and secondary Hanford Site Roadways, to include maintenance, snow removal, patching/paving, striping, traffic management and other road maintenance services. Perform maintenance of common grounds. Activities in this area are for general use areas only and include perimeter fence/sign maintenance at the Hanford Site Boundaries; lawn and landscape care; annual inspection and maintenance of gravel pits; general area cleanup; sweeping sidewalks; sweeping parking lots, parking lot repairs and repairing bumper blocks. Perform General Use Parking Lot routine maintenance and repairs. (<u>General Use</u>: i.e. A General Use Parking Lot is one that is used by more than one Hanford Site Contractor to support a building complex with multiple facilities. <u>Contractor Dedicated</u>: Hanford Site Contractors have in their contracts a list of contract dedicated facilities (per Structure List in Section J of each contract). When a parking lot is located adjacent to a contractor-dedicated facility, and the parking lot is only used by that contractor and their subcontractors, that parking lot is considered Contractor Dedicated. Make recommendations to restrict access and make the appropriate notifications of restricted access or closure to DOE and other OHCs in the event that roads are unsafe for travel. Provide snow removal at shared buildings, parking lots and walkways (per the Hanford Snow Removal Plan). Develop a database and map to further define exactly where direct funded services are to be provided for maintenance of common grounds, snow removal and road maintenance. OHCs shall provide input to the Hanford Roads Master Plan. 									

Usage Based Services		
Service	Service Type	Clarifications
Parking lot routine maintenance and repairs	Optional	Contractor-dedicated Parking Lots and Sidewalks associated with other contractors are not included in this work scope. Service provider may provide these services to other OHCs upon request and on a reimbursable basis.
Snow removal for parking lots and sidewalks	Optional	Contractor-dedicated Parking Lots and Sidewalks associated with other contractors are not included in this work scope. Service provider may provide these services to other OHCs upon request and on a reimbursable basis.

Service Number	Service Title	Interface Type	HMESC	CPCC	TWCC	WTP Construction	222-S Lab	OccMed	Other Site Users
12	Railroad System	Physical/Service	Provide service and receive request	Request service	Request service	Request service	Request service	Request service	Request service
Service Description									
<p>The Hanford Site Railroad System consists of approximately 40-miles of Class II track and one signal crossing between Horn Rapids Road and the 200 West Area.</p> <ul style="list-style-type: none"> OHCs shall request and provide requirements for service. Coordinate with OHCs, projects, and offsite entities prior to and during onsite rail movements, including placement of “flaggers” at necessary intersections, taking proper security actions, and making Hanford Site notifications. Maintain and operate the Rail System on the Hanford Site, as required. 									
Direct Funded Services									
<ul style="list-style-type: none"> Maintain the track at a Class II level including, but not limited to, rails, ties, and rail beds, consistent with supporting Energy Northwest shipments, and in accordance with Federal Railroad Administration regulation. Maintain railroad and road intersections to ensure the safety of vehicles crossing the intersection. Provide planning as required. 									
Usage Based Services									
Service		Service Type		Clarifications					
Railroad usage on the Hanford Site		Mandatory		OHCs receiving the service pay the costs related to usage of the rail service including but not limited to loading/offloading, flaggers, support personnel, transport costs, security, upgrades, and permits. This includes the 40-miles of the Hanford Site Railroad System, or portion thereof required to support the requested service.					

Transportation

Table J-3.b-13. Service Number 13, Motor Carrier Services

Service No.	Service Title	Interface Type	HMESC	CPCC	TWCC	WTP Construction	222-S Lab	OccMed	Other Site Users
13	Motor Carrier Services	Service	Provide Service and receive input	Receive service and provide input	Receive service and provide input	N/A	Receive service and provide input	Receive service and provide input	Receive service and provide input
Service Description									
<p>Act as the Hanford Site Motor Carrier similar to a commercial motor carrier. Motor Carrier Services provides a ready-to-serve, centralized pool of commercial motor vehicles and qualified drivers for onsite and limited commerce transportation of general freight and hazardous materials, including radioactive materials and radioactive mixed waste.</p> <p>The HMESC shall:</p> <ul style="list-style-type: none"> • Provide program management: Manage, schedule, and conduct motor carrier services. • Maintain and operate a centralized pool of vehicles and qualified drivers for onsite and limited commercial carrier operation in accordance with the Federal Motor Carrier Safety Regulations and Hanford Site Transportation Safety Document. • Comply with Department of Transportation (DOT), Title 49 Code of Federal Regulations, <i>Federal Motor Carrier Safety Regulations</i>, for onsite activities. • Provide Motor Carrier liability insurance for vehicles/drivers in the HMESC's Motor Carrier Services Program that are assigned to OHCs as required by the DOT Program. <p>OHCs shall:</p> <ul style="list-style-type: none"> • Provide input to the Motor Carrier Services Master Plan. • Prepare freight for shipment (packaging the freight) and provided associated documentation or direct a pickup of freight from a particular Hanford Site Contractor or Vendor. • As customers of this service prepare the waste for transport including shipper/receiver agreement documents, transportation documents for packaging, transportation and receipt by the receiving facility. 									
Direct Funded Services									
N/A									

Usage Based Services		
Service	Service Type	Clarification
Motor Carrier Ready-to-Serve Operations	Mandatory	This is for government owned vehicles only, which are part of the Fleet Equipment Program.
Transportation of hazardous materials	Mandatory	Pickup and delivery to Site customers as requested, includes transportation of DOT Cargo Tankers on and offsite (i.e., compressed gas cylinders, propane); does not include coordination, loading, or unloading.
Fuel delivery	Mandatory	Refueling of gasoline and diesel powered equipment across the Hanford Site. Where conditions warrant, deviations from fuel delivery activities will be mutually agreed upon between the contractors.
Support office moves	Mandatory	Supply customer with required transportation equipment, including qualified driver. Does not include move coordinator, technicians, or movers.
Onsite records transport	Mandatory	Transport and handling of record materials between customer and storage facilities throughout the Hanford Site. Does not include loading or unloading.
Transportation of hazardous and/or radioactive waste	Mandatory	Transportation of waste drums, DOT-approved hazmat containers, recyclable materials, radioactive shipments, rolling road closure shipments. OHCs who are customers of this service prepare the waste for transport including shipper/receiver agreement documents, transportation documents for packaging, transportation and receipt by the receiving facility. Only includes qualified driver and vehicle to transport hazardous material and waste. Does not include loading or unloading.
Provide truck transport onsite	Optional	The Hanford Site Contractor will prepare freight for shipment (packaging the freight) and provide associated documentation or direct a pickup of freight from a particular Hanford Site Contractor or Vendor. This does not include parcel delivery of boxes.
Heavy equipment transportation	Mandatory	Site-wide hauling of government owned and leased equipment, attachments, and vehicles, including wrecker services. Heavy weight transportation for items 8,000 lbs. and above includes pilot car, flaggers, and specialized transport. Does not include permits or required spotters during transportation of items to customer.
Pickup at local vendors as requested	Optional	Transportation of materials and supplies from local area vendors as requested by customers. Provide customer required equipment and driver to pick up vendor

		purchased items offsite and deliver to onsite customers. Onsite contractors may have vendor supply items directly to warehouse or projects.
Upon mutual agreement, the Contractor may provide a limited number of specialized vehicles/equipment and drivers to OHCs to support the efficient management of resources	Optional	Vehicles/equipment provided by the HMESC will remain in the HMESC's Fleet Maintenance Programs (Loan Program). The user will supply personal protective equipment (PPE), supervision, work package development, and training required to perform activities. Specialized Equipment: Guzzler – Non Regulated
Guzzler – Regulated	Mandatory	Regulated Guzzler (permitted for radiologically contaminated or potentially radiologically contaminated soil, operation subject to the limits & conditions of applicable radiological air permit and procedure). The user will supply PPE, supervision, work package development, and training required to perform activities.

Service Description									
<p>Fire and Emergency Response Services provide fire prevention, fire suppression, fire investigations; emergency rescue; emergency medical service and patient transport; incident command; and hazardous material and chemical/biological/radiological emergency response for the Hanford Site and those non-Hanford Site Areas designated by DOE.</p> <ul style="list-style-type: none"> OHCs shall support facility access to the fire Emergency Response Service Personnel, and notify the Hanford Fire Department of work activities, events, incidents, etc., that may require Fire Services involvement and/or response (e.g., medical assistance, hazardous or radiological emergency help, etc.) During high fire hazard danger season, OHCs will coordinate with the Hanford Fire Department for off-road work activities. In regards to emergency situations created by a hazardous material spill, including mixed waste spills, once the hazards have been mitigated, the owners of the facility or material have the responsibility for cleaning up the material and decontaminating the site, but may request supplemental expertise from Fire Services. MAPR receives service in accordance with mutual aid agreements. 									
Direct Funded Services									
<ul style="list-style-type: none"> Provide a Fire Marshal who has delegated Authority Having Jurisdiction (AHJ) authority for the Hanford Site as identified in HNF-52336, <i>Authority, Responsibilities, and Duties of the Hanford Fire Marshal</i>. Fire and Emergency Response services provide 24/7 fire-related protection of human life, property, and facilities; and operates basic and advanced life support emergency medical services. Provide 9-1-1 backup to the Patrol Operations Center. Act as the Site Incident Command Agency for fires and hazardous/radiological materials emergencies on the Hanford Site. 									

- Provide support for Hanford Fire Department participation in drills and exercises.
- DOE will provide an MOU between the DOE and U.S. Fish and Wildlife (USFWS) for the operation of designated portions of the Hanford Reach National Monument regarding fire notification responsibilities.
- DOE will provide the “Cooperative Fire Protection Agreement” with the USFWS regarding the commitment of both the USFWS and DOE, in fire suppression emergency response activities for land managed by the USFWS.
- The Medical Emergency Response Program shall be conducted under the Mid-Columbia Emergency Medical Services and Trauma Council, operated under the County Medical Program Director. The ambulance service shall include basic and advanced life support and be licensed through the DOH.
